PLEASE RETURN WHITE PAGES.

- Do we need an early warning system for floods?

Yes Our creek crossing often floods on Old Lardley forest Hill road and there is never any warning. - It can be dry at our place but rain in Mulgowie and it floods. This is a disastrous crossing with one death and numerous cars swept away in past.

- Have you ever been involved in a local meeting about flood early warning system?

No, but would attend.

- Would an early warning system work?

Yes.

- Had you been advised by Council, or State Government, the highest flood levels in your area?

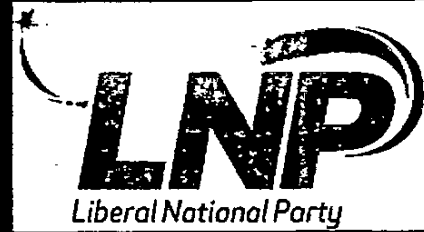

No

- Had you ever received evacuation information for flood / landslides / fires?

Via mobile during flood but was a bit late as we had no way of getting out apart from walking up hill and camping in neighbours place, even though they weren't home !!

Please turn over.

PLEASE RETURN WHITE PAGES

- Have you ever been advised of a flood management plan?

No.

No

- Have you ever been asked to be on or involved with a Floodplain Advisory Committee?

No

No

- What do you feel could have been done to make your area safer:-

- Before the flood **BETTER ROAD DRAINAGE**

- During the flood **—**

- After the flood **WHEN REBUILDING ROADS MAKE THEM HIGHER SO THEY DON'T FLOOD SO EASILY**

- Other Questions or Statements.

THE OLD LOCKYER FORESTHILL ROAD CONTINUALLY FLOODS EVEN WITH LOW RAINFALL. THE CREEK CROSSING HAS TO BE RAISED. AT THE FORESTHILL - FERNVALE END, HAS TO BE RAISED ALSO. RESIDENTS BETWEEN THE TWO AREAS CANNOT GET OUT BECAUSE THE ROAD IS BLOCKED DUE TO WATER.

Ensure the questionnaire is filled out.
