PLEASE RETURN WHITE PAGES

- Have you ever been advised of a flood management plan?

No

- Have you ever been asked to be on or involved with a Floodplain Advisory Committee?

No

- What do you feel could have been done to make your area safer:-
- Before the flood *the natural watercourse on a farm behind us must be put back to stop Sandy creek water flooding into Dyer st from the highest point*
- During the flood
- After the flood *Hose the street as soon as possible to get rid of mud. that made the street unsafe to drive on, not wait till residents had to complain*
- Other Questions or Statements.

*the upstairs room of the school wasn't suitable for evacuation because the toilet block was downstairs and flooded.*

*Since L.V.R.C altered Dyer Street on the 27<sup>th</sup> December 2010 for the first time in 35 years we have never had water 6-8 ins deep under our house. The water in the insert in front of our house was too deep to get our car out. We have tried to talk to council but not interested. We need our street back to how it was to stop water coming under our house. We would appreciate it if you could come and talk to us.*

Ensure the questionnaire is filled out.
