- Have you ever been advised of a flood management plan?

NO

- Have you ever been asked to be on or involved with a Floodplain Advisory Committee?

NO

- What do you feel could have been done to make your area safer:-
- Before the flood *clean Creeks of Timber Growth.*
- During the flood
- After the flood *As above.*

- Other Questions or Statements.

Why not clean the ~~wiers~~ weirs along the creeks as a starting point of silt and debris - would make some of them at least 1 metre deeper. That's why some creeks changed course - too much rubbish in the creek bed & banks. If cleaned often there would be little damage to banks.

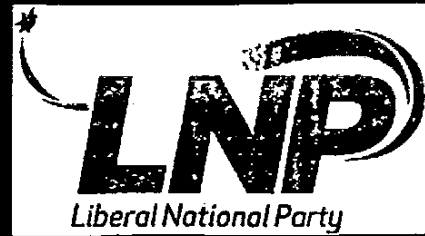

- Ensure the questionnaire is filled out.
- Complete cover sheet for submission.
- Return this form with your submission.
