• Do we need an early warning system for floods?
  Yes. But the flood that we just had happened to quick for any warning system.

• Have you ever been involved in a local meeting about flood early warning system?
  No.

• Would an early warning system work?
  Yes, if the power is still on and the phone lines aren't blocked.

• Had you been advised by Council, or State Government, the highest flood levels in your area?
  No.

• Had you ever received evacuation information for flood / landslides / fires?
  No.
Have you ever been advised of a flood management plan?
No.

Have you ever been asked to be on or involved with a Floodplain Advisory Committee?
No.

What do you feel could have been done to make your area safer:

Before the flood - HAVE A FLOOD WARNING IF THERE IS SUPPOSED TO BE A LOT OF RAIN.
During the flood - GET HELICOPTERS OUT AS SOON AS POSSIBLE TO HELP ANYONE THEY CAN.
After the flood CHECK HOW EVERYONE IN THE AREA HAS BEEN AFFECTED ASAP, NOT A WEEK LATER.

Where I live if people were told they had to evacuate they wouldn't have been able to cause every road was ruined or underwater.

Ensure the questionnaire is filled out.

Complete cover sheet for submission.

Return this form with your submission.
