PLEASE RETURN WHITE PAGES.

- Do we need an early warning system for floods?

Yes, but as a resident of Postman's Ridge the tragedy of January 10 just happened so fast I'm not sure how much it would have ^{actually helped}

- Have you ever been involved in a local meeting about flood early warning system?

No

- Would an early warning system work?

I think it would have helped in Crantham - any warning is better than none

- Had you been advised by Council, or State Government, the highest flood levels in your area?

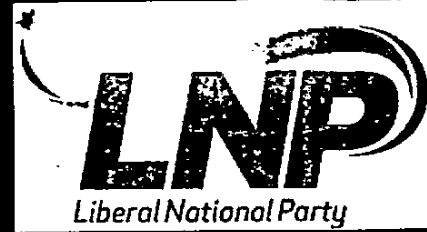

No

- Had you ever received evacuation information for flood / landslides / fires?

No

Please turn over.

PLEASE RETURN WHITE PAGES

- Have you ever been advised of a flood management plan?

No

- Have you ever been asked to be on or involved with a Floodplain Advisory Committee?

No

- What do you feel could have been done to make your area safer:-
- Before the flood - wider drain down street
- During the flood - Emergency Services were great
- After the flood - Investigation into the state of drains and flow of excess runoff
- Other Questions or Statements.

The council needs to put stricter regulations on peoples dams. I have 2 large dams above my residence and all the overflow runs straight at my house. I have requested the council put in larger drains to divert the runoff from overflowing into my house but no reply.

- Ensure the questionnaire is filled out.
- Complete cover sheet for submission.
- Return this form with your submission.
