

Name of Witness	McKILLOP, Megan McCrea
Date of Birth	[REDACTED]
Address and contact details	[REDACTED] Burpengary
Occupation	Home Duties
Officer taking statement	Detective Sergeant Stephen PLATZ
Date taken	28/04/2011

Megan McCrea McKILLOP states:

- I am a [REDACTED] year old married female presently residing at [REDACTED] Burpengary with my husband David and my two children, the eldest is two years old and the other is now almost eight months old. This house is a two storey multi-room dwelling house. The property is situated about fifty metres from Burpengary creek.
- On the 11th day of May 2010 we received the contract to buy our current property at [REDACTED] Burpengary. At this time there was no information provided to us that indicated that the property was in a flood prone area. It did state however it was in 'Q100' zone. I did not know what this meant, so I conducted inquiries with the Moreton Bay Regional Council with regards to this issue. I was advised from the council that the property was in a 2 in 100 year flood zone. No further information was provided. I was also advised that despite now being advised of this information we were unable to exit the contract. I am able to produce the reply letter from the council and an e-mail addressed to our solicitor at the time.

EXHIBIT: Letter received from Moreton Bay regional council dated 15 June 2010 and e-mail addressed to Conveyancing works solicitors dated 23 June 2010.

Marked Exhibit No/...

3. I remember the 11th day of October 2010 at about 5.00am I was at home with my family. It was raining quite heavily outside and had been for some days. My husband, David, was getting ready to go to work at this time when I heard a knock at the front door. David answered and our neighbour, Wayne, was there. As I was listening in the hallway I overheard Wayne telling David that the Burpengary creek was rising and I should keep an eye on it. He also stated that if it rises to 8 metres we should put our possessions on higher ground. I was quite shocked as I did not expect flooding to this degree. At 5.15am my husband left for work. I was unable to keep an eye on the creek levels as my youngest child was only about three weeks old.

4. At about 9.00am the other next door neighbour knocked on our door and informed me that the creek was flooding and was entering the yard of the property opposite us. I became quite concerned and panicked a little bit. I rang David and he came home shortly after. We then started packing up key items and moving them to the upper level of the house. Once we did this we packed the car and left the house to go to higher ground.

5. Early next morning on the 12th day of October 2010 we returned home and saw that the flooding had entered the bottom level of the house. The flooding was not high but it covered the carpets and tiles downstairs. As a result of this flooding we had to rip up the carpets and tiles and replace them. On the week before Christmas we had repaired the areas that had been damaged.

6. As a result of this flood we became quite vigilant and constantly checked the Bureau of meteorology (BOM) website in times of high rainfall, especially the river/creek heights. Around the Christmas period 2010 we received significant

Witness Signature

Page Number 2 of 6

..... Signature of officer

rainfall and indications that the creek was rising towards the eight metre mark. Over this period we self evacuated four times. At this time we received no formal warning or message to evacuate.

7. On the 9th day of January 2011 I was again at home. On this day we received a high amount of rainfall and I was monitoring the BOM website which indicated that the creek was rising to above eight metres. At about 6.30pm David came home half way through his shift and neighbours had already helped me move key items up stairs, preparing for flooding. By this time we were sick of evacuating and decided to stay. For some reason despite the creek rising to 8.5 metres height, it did not flood our house.
8. I remember the 10th day of January 2011 I was at home and it had been raining constantly for the last few days. David remained at home due to our concerns for flooding in our area. I was monitoring the BOM website throughout the day which indicated that the creek was stable and at some stages was even dropping. We did not receive any flooding on this day.
9. On Tuesday the 11th day of January 2011, David and I were at home with the kids. At about 5.00am I was woken by very heavy rain. I then got up and got on the computer to check the BOM website. The website indicated that the local creeks were rising at a rapid rate, so much so that the river gauges could not keep up with the amount of water flowing in. David got up and we immediately made preparations for possible flooding. David drove our two cars to high ground, near the Burpengary Police station. Within about 12 minutes, since David left in the cars, water started to flood into the downstairs area of the house. It was now about 8.10am.
10. At 8.30am the water rose significantly and was now inundating our downstairs lounge suite. At 8.40am the water was now well above our knees and it was very fast flowing. At this stage we couldn't get out the front door of the house. Outside, water was everywhere and the kids play gym, bins and barbeque were floating away.

11. I then tried to call the State Emergency Service (SES) as I worried about getting trapped in the flood waters. I was put on hold for half an hour and was quite frantic at this time. The water was now covering the entire bottom level of the house and was halfway up the internal stairs of the house. We retreated upstairs and there was no way out the main door. As I was on hold to get through to the SES, our neighbours came around the side of the house in his tinnie. David and I had to walk out through the water with our kids on top of our heads. It was quite dangerous due to the fast flowing water which was up to my neck. Once we got to the boat we put the kids in and we had to hold onto the sides due to the small size of the boat. As I was walking in the deep water I lost my footing. I started to get dragged down the current when David grabbed. This was a very scary situation. The neighbour then idled the boat towards the nearest high ground which was to the rear of our neighbour's house. A hole needed to be cut through the fence to allow us to reach higher ground.

12. Once we got to high ground we were offered a lift to our car and we drove to my sister's house. At 11.30am I received a warning via my mobile phone advising residents in our area to evacuate. By this time it was too late and we had already self evacuated. We remained at my sisters until the floods resided.

13. The main issues that I have with regards to the flood relate to the council zoning prior to and after the flood; lack of warning; lack of preparation and lack of emergency response by the SES.

14. As mentioned, the council did not properly inform us of the high flood potential of the area prior to entering into the contract. In March 2011 the council have re-zoned our area as a flood zone, which has significantly affected the value of our property. Upon making further inquiries on this issue I received documents from the Council in 2009 that indicate their knowledge of serious flooding in the area and the title's document that did not indicate any Q100 flood classification. I am able to produce these documents.

Witness Signature. 
Page Number 4 of 6

Signature of officer

EXHIBIT: Titles document for 12 Dale Street, Burpengary and council correspondence in 2009.

Marked Exhibit No/...

15. Between October 2010 and the floods in January 2011 we did not receive any useful official warning to evacuate our premises. The only warning we did receive on the 11/01/2011 was too late and subsequently put my family at risk.
16. I also received information from a fellow resident that a number of displaced people were told by the SES to go to the Burpengary Community centre which was being used as an evacuation centre. Upon arrival the centre was locked and no officials were present. At no time did the council or any other agency provide to us an evacuation plan or areas to go to with regards to a flood.
17. The response by the SES was poor. I was unable to get through to the SES when our house was being inundated and they are the only agency at the time that could evacuate us by boat.
18. During the flood event I took some photographs of our house when it was inundated. I later provided these to the flood commission. I also provided the flood commission with a print out of the local river heights during this period. I am able to produce these documents.

Dear Resident

I am writing to update you about the flooding issues in your street.

Firstly, I have been lobbying to get the rubbish and debris picked up as soon as possible from your street. Hopefully, that will have happened by the time you get this letter.

Secondly, I understand there were some problems again with the flood warning system in Dale Street, with some people failing to get the warning during the last flooding event.

I have discussed the issue with the Director and how we can improve it. It would hope you will be able to rely upon receiving a timely warning in future events, once we make these improvements.

Thirdly, please remember your properties are prone to flood problems. There is a note on your property records that states in part

"The hundred year frequency flood calculations indicate that approximately 100% of the above allotment may be below this calculated flood level i.e. R.L. 12.2m Australian Height Datum.

and

"It is a Council requirement that the floor level of any habitable room shall be in accordance with Council's Shire Plan.

That means that you may not be able to construct a "habitable room" on the ground floor of your property. Habitable rooms need to be approximately 300mm above the 100 year flood level.

If you need any more information about the property note or building requirements, please feel free to contact the Customer Service Centre on 5433 3000.

Lastly, I want to thank you for your patience in these recent months. Many of you have suffered substantial losses, but everyone I have talked to in Dale Street has been patient, understanding and been prepared to help each other.

Yours faithfully

Dear Resident

As a resident of Dale Street, you would be aware that from time to time the street is prone to flooding during periods of heavy rain.

Given that it is several years since a flood event has affected Dale Street, Council is reminding all residents that procedures are in place to assist and alert residents during times of inundation.

Council operates several rainfall and flood gauge stations in the Burpengary Creek catchment which are monitored by Council officers during periods of heavy rain. The gauges allow Council to assess the likely impact of heavy rain events and alert residents accordingly.

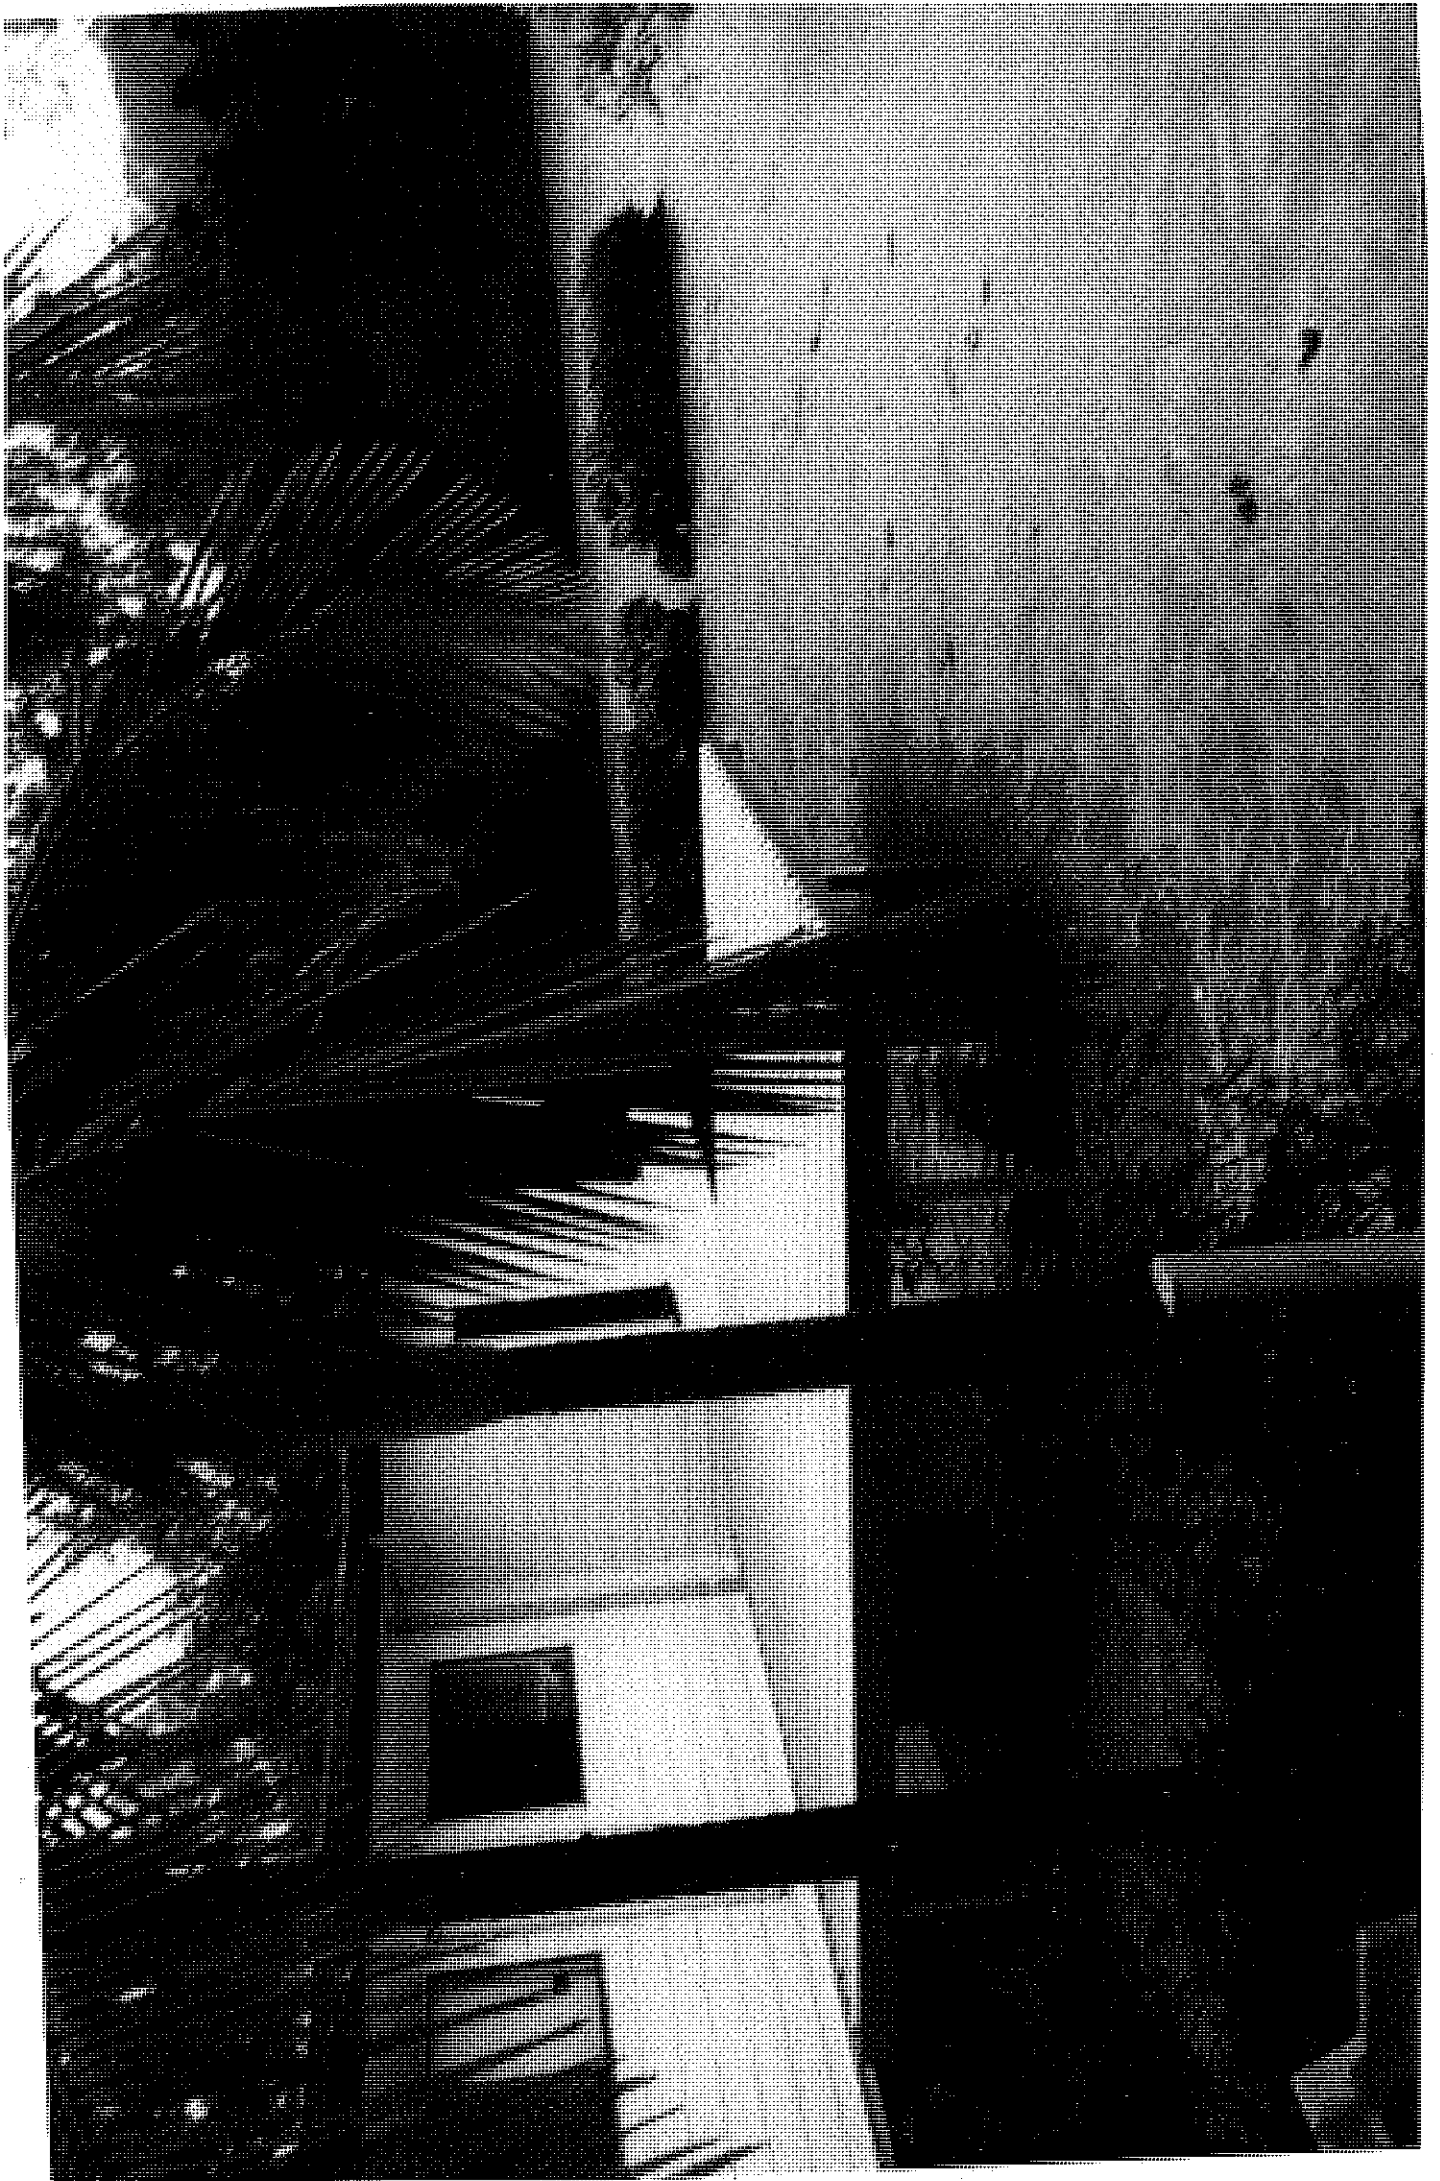

Residents of Dale Street will receive a **first warning** of potential flooding a couple of hours ahead of inundation. This warning will be communicated in person by SES or Council staff and will alert residents that water levels are expected to exceed 200mm on the actual roadway. Residents will be advised to relocate vehicles to higher ground and to commence moving valuable items from ground level to higher floors.

A **second warning** (if required) will be issued in person by SES or Council staff if properties are expected to be inundated and evacuation is advised. Residents should consider this possibility in advance and have contingency plans in place for alternative accommodation.

Residents are urged to keep this information handy for future reference. For more information about Council's warning procedures, please contact Council's Roads and Drains, Programmed Maintenance Manager, Edwin Hamill on [REDACTED].

Yours faithfully

Dear David and Megan,

MCKILLOP PURCHASE FROM ALLISON
[REDACTED]

We refer to the above matter and enclose a copy of our Moreton Bay Regional Council search result for your information. Please read the whole of this document to ensure you are aware of all the information it discloses.

We note that the search result contains the following Flood Reply:

Council records indicate that 100% of the above allotment may be below the estimated highest flood level i.e. R.L 11.41m Australian Height Datum. Please refer to page 3 of the rate search.

We draw your attention to the notes at item # 1 on page # 2 in relation to Property Information.

These result do not entitle you to terminate this contract, however we advise you to contact the Moreton Bay Regional Council to determine how this may impact your use of the property.

If you have any further queries please do not hesitate to contact me.

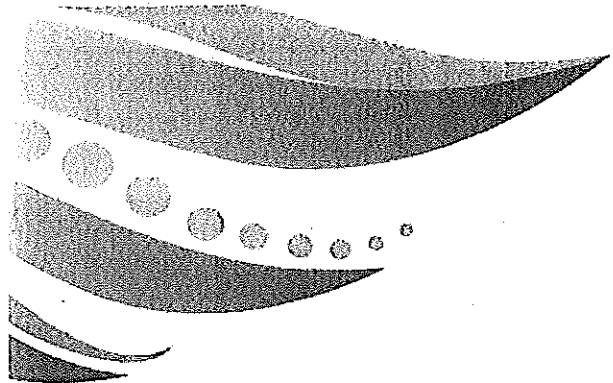

Kind Regards,

Dawn Fitzgerald

There are no Separate Plumbing Applications on this property.

Please refer to Appendix 1 (M) for definitions of the Application Status.

(2) MISCELLANEOUS NOTICE INFORMATION

There are no Miscellaneous Notices on this property.

(3) ZONING INFORMATION

Residential A Zone.

Flood Reply

- (i) Council's records indicate that 100% of the above allotment may be below the estimated highest flood level i.e. R.L. 11.41m Australian Height Datum.

NOTE: This level has been interpolated from recorded adjacent flood levels.

- (ii) The hundred year frequency flood calculations indicate that approximately 100% of the above allotment may be below this calculated flood level i.e. R.L. 12.2m Australian Height Datum.

Council cannot guarantee the accuracy of this information which is compiled from existing flooding records nor does it accept any responsibility for same.

Please note that Council will not approve rezoning applications for development of land that does not comply with Council's Shire Plan.

Kindly note further that it is a Council requirement that the floor level of any habitable room shall be in accordance with Council's Shire Plan.

Due to the nature of flood events it must be emphasised that no flooding event will necessarily occur to the same previously observed or specifically calculated level. Where a lot is stated as being subject to flood and a level has been given, this denotes that this land is subject to flooding and can be affected by more severe flooding events. In the interest of reducing exposure to flooding, you are advised to ensure any building floor level, habitable or otherwise is elevated to the highest practicable level on the land.

Council's policies with regard to building levels and subdivision of land are the minimum specific requirements accepted by Council and do not relate in any way to a maximum probable flooding event.

Last Quarter Billed Reading - 1,978 kilolitres

Special Reading Details:-
Special Read - 2,073 kilolitres
Special Read Date - 15-Jun-2010

The usage amount disclosed above represents water consumption yet to be billed. It is a matter between the vendor and purchaser to agree on the apportionment of this consumption. The Council is not responsible to explain any variation between apportionment and subsequent billing.

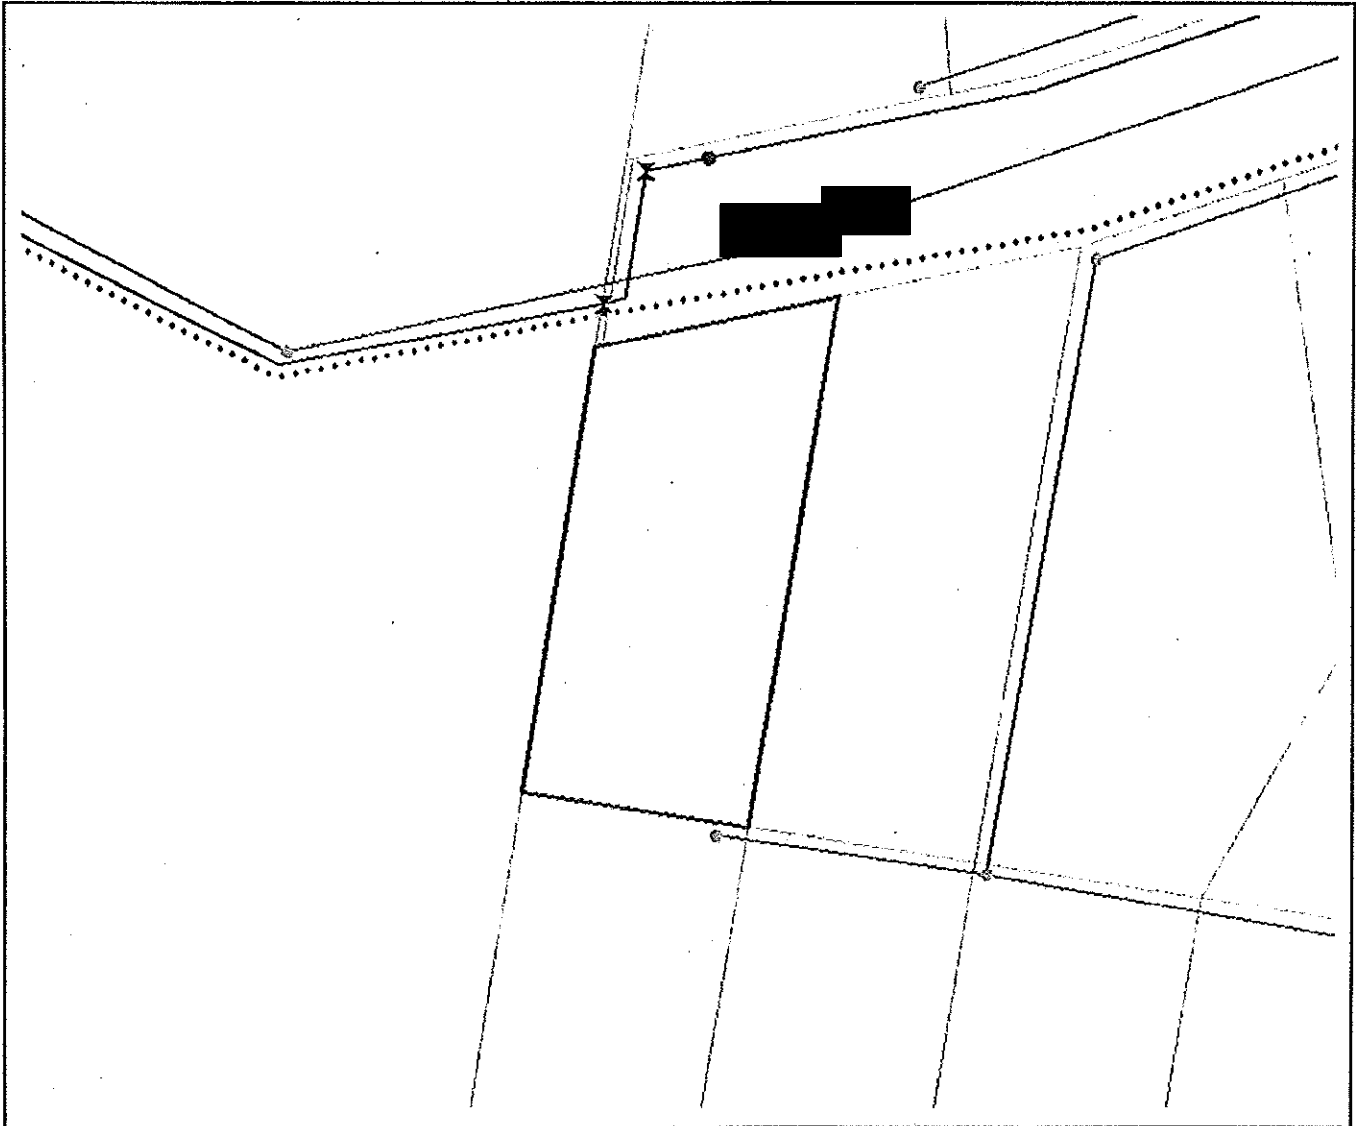

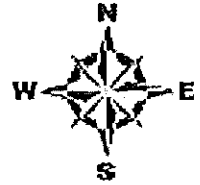

OTHER IMPORTANT INFORMATION:-

1. The attached map shows the position of sewerage mains and manholes in the locality of this property, however the actual location of some of the services may not be exact. The property owner is responsible to ensure sewerage manholes are accessible at all times for operation and maintenance purposes. If a manhole is found to be buried on a property, there will be a cost payable by the owner (at that time) to Council, for raising this manhole to surface level.
1. Upon official notification from the Titles Office received by Council on or after the 1st July 2009 that a transfer of property has taken place, the Council will charge a Change of Ownership fee in the sum of \$58.00 on the next quarters rate notice. In order to avoid unnecessary enquiries by the transferee to both you and us at a later date, it is essential you make the transferee aware of their liability for this fee.
2. Delays in receiving notification from the Department of Environment & Resource Management that this property has changed ownership may mean that the rates notice for the next quarter will be sent to the previous owner. If this notice is not paid within the required time interest will be charged to the property.
3. Interest on any debit balance from last period amounts will accrue at the current rate of 9% per annum compounding on daily rests until full payment is made. Prompt payment will avoid ongoing interest charges and an updated balance should be obtained prior to payment.
4. If there is a pension rebate detailed in this search, it has been granted to the eligible pensioner for the entire billing period specified. The Council will not adjust the rebate even though a settlement may occur during the disclosed billing period. Settlement adjustments should ensure the eligible pensioner received the full benefit of the rebate.
5. To ensure no problems arise after settlement, it is in the purchaser's best interest to make payment of the total amount of rates and charges outstanding at settlement. When returning payment for rates please quote the Assessment No. for receipting purposes.

Appendix 1 (M)

APPLICATION STATUS	DESCRIPTION
Building Application Finalised (Please note: This only applies to Privately Certified Applications)	The Private/Building Certifier has lodged to Council for archival purposes – a Notice of Engagement, a copy of the approval documentation that was issued in respect of the proposed building work and a copy of the inspection documentation showing all mandatory stages of inspection were conducted and the work satisfactory. This indicates the building work has been completed and that the building approval has now been finalised.
Building Application Not Finalised (Please note: This only applies to Privately Certified Applications)	The Private/Building Certifier has lodged to Council for archival purposes – a Notice of Engagement and a copy of the approval documentation that was issued in respect of the proposed building work; however, there has been no subsequent inspection documentation lodged by the Certifier. This indicates that the building work has not yet been completed and the approval has not been finalised. It is suggested that you contact the Certifier that issued the approval for further information.
Building Application Lapsed (Please note: This only applies to Privately Certified Applications)	The Private/Building Certifier has lodged to Council for archival purposes – a Notice of Engagement, a copy of the approval documentation that was issued in respect of the proposed building work and a copy of the inspection documentation. The inspection documents establish that there are outstanding inspections or unresolved issues, however the approval has now expired.
Building Application Not Finalised/Lapsed (Please note: This only applies to Not Privately Certified Applications)	For further information please contact Compliance Services on (07) 5433 3000.
TCP to Inspect (The Certification Professionals)	A final inspection is required, which will be carried out by The Certification Professionals. For further information, please call Compliance Services on (07) 5433 2317.
Plumbing Finalised	Plumbing and/or drainage work has been satisfactorily inspected and a Statement of Inspection or Compliance Certificate has been issued for the finalised work.
Plumbing Not Finalised	Plumbing and/or drainage work has not been satisfactorily inspected. It is suggested that you contact Council's Environment and Local Laws Plumbing Section, on (07) 3205 0555 for further information.
Plumbing Lapsed	Under the Plumbing and Drainage Act 2002, a plumbing application will lapse if work has not commenced within 2 years from the date of approval or alternatively, 12 months if no response to an Information Request has been received by Council. A new application must be submitted in this circumstance. For further information, please call Plumbing Services on 3205 0555.
Unconfirmed	The status of approvals in the Redcliffe District are not available for applications issued prior to 1998. Should you require a copy of the building plans, you may apply for a 'Copy of Building Approval' search by submitting the prescribed form and fee. Please contact Council's Customer Service Department on (07) 3205 0555 for further information.
Pine Rivers Pre 1998 Building Applications	The status of approvals prior to 1 st April 1998, are not listed within this search. Should you require further details on the status of these particular approvals you may apply for the File Status Report by submitting the prescribed form and fee. A File Status Report is not available for Building Applications prior to 1989. Please contact Council's Customer Service Department on (07) 3480 6666 for further information.
