SUBJECT: Maps of Low Lying Areas
DATE: 12 January 2011

The LDMG has issued a media release advising those in certain areas to prepare for the flood peak expected on Thursday.

In response to requests for information or maps of low lying areas please advise those enquiring as follows:-

"At this stage the areas of concern are the Brigalow Creek /Glenoak Road precinct and the area west of West street in Goondiwindi. Those likely to be impacted will have received a hand delivered notice this morning and will receive a further notice tommorrow."

"Areas within the former Goondiwindi Town Council area are not expected to be impacted whilst the integrity of the levee is maintained. Those areas in the Goondiwindi town area that may have experienced local flooding in the past few years have been as a result of local rain events and not river rises like we are expecting now. "
